National Ready Mixed Concrete Association

State Association of the Year Award

900 Spring St.

Silver Spring, MD 20910

RE: Colorado Ready Mixed Concrete Association Recommendation

Dear Judging Committee,

I am writing to recommend the Colorado Ready Mixed Concrete Association (CRMCA) for the National Association of the Year award. As a peer and partner in the concrete industry, I have the opportunity to interact consistently with CRMCA staff and take advantage of participating in their high-quality programs.

The CRMCA is a leader in the ready mix concrete industry in many ways; they are a persistent and effective voice heard in the Colorado State Legislature. CRMCA is constantly striving and succeeding to land above the status quo when it comes to education through their ACI Program and local seminars. They have tackled and established large programs and initiatives such as Build with Strength and their Adherence Testing App. They consider the input of their membership and are constantly pushing for the betterment of the Ready-Mix Concrete industry.

Thank you for your time and consideration of CRMCA in the State Association of the Year award selection.

Sincerely,

A handwritten signature in black ink that reads 'Angela Folkestad'. The signature is written in a cursive, flowing style.

Angela Folkestad
Executive Director
